psk 185 S/E *pro*

Electronic pasteurizer with
**ultimate
technology**

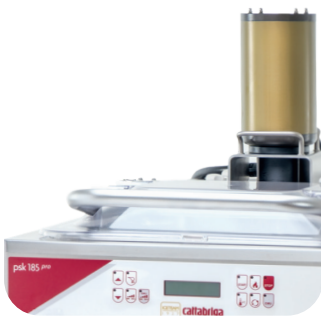

cattabriga

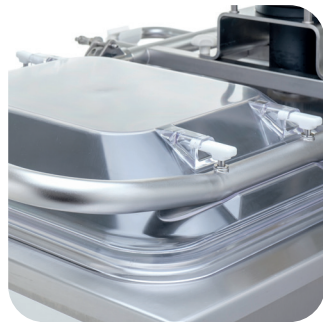

cattabriga

*Psk 185 pro is the new big-size pasteurizer by Cattabriga, equipped with high technology and ease of use. It allows to treat both minimum and maximum charges with high flexibility and in an extremely short time. Thanks to the **three-level double heating system**, consumptions are reduced.*

Optional New emulsifer
Guarantees a micronized and perfectly homogeneous mix. It is very easy to remove and clean.

New lid
The new enforced lid is transparent and easy to take apart completely.

Pro grid
Stainless-steel made, safe and removable, allows to add solid ingredients even during the heating phase, without stopping the mixing and in total safety.

New tap
The adjustable piston, equipped with *Chef* handle, is removable and easy to clean even with a full hopper.

Dialog – remote assistance and monitoring system

App M2M Dialog – remote control of the pasteurization cycle

- ✓ **High production flexibility (55-170 lt) and storage flexibly (35-170 lt)**

The spinner speed varies automatically depending on the quantity of mix, that is measured by a floating sensor placed inside the tank; minimum and maximum charges are processed with the same efficiency, to grant the best possible heat transfer and to avoid foaming.

extraction

The new tap allows to extract the mix very easily. It is completely removable and easy to clean, even with a full hopper.

psk 185^{pro}

TECHNICAL SPECIFICATIONS

psk 185 S/Epro

Quantity per cycle	lt	55 - 170
Speed Mix		10
Emulsifier motor	kW	1.1
Electrical resistences	kW	11
Compressor electrical loading	kW	7.5
Installed power	kW	14
Cooling		acqua / water
Electrical supply	STANDARD	400 / 3 / 50 Hz
Width	mm	690
Depth	mm	950
Height	mm	1150
Net-Gross weight	kg	325-350

All specifications mentioned must be considered approximate. Iceteam 1927 reserves the right to modify, without notice, all parts deemed necessary.
